Looking For Her Glasses.

There is nothing an elderly person, who must rely upon artificial aid for good vision, so enjoys, as good glasses. By "good glasses" we do not mean expensive frames, nor elaborate mountings, but do mean a finely ground lens, a lens refracting each and every atom of light accurately, and fitted by a competent optician, from scientific measurements, made in a scientific way.

The one who has relied upon cheap, ill-fitting sight-breakers, sold by stores, peddlers, and incompetents—glasses which give the greatest relief when lost, is the person who will evince the most appreciation of those we fit, after an accurate measurement of the eye and its defect.

Farmers who hope to make money by furnishing cream for the separator, must not build too high hopes on large returns from a lot of half breed Texas cows. What is necessary is to make the most possible from the cows you have and endeavor to improve your milking stock as fast as possible. With good cows and proper attention, plenty of good feed, your milk can be made the best revenue producer of the farm.

The Burlington is equipping its passenger locomotives with the new electric head light. Several of the engineers running between Burlington and Chicago now have the electric headlights, and within the next few weeks others will be equipped with them. The electric headlight can be seen at a distance of seven miles on a straight track. The electricity is manufactured by a little dynamo between the stack and headlight for the cab and tender. The miniature electric light plant on each engine is examined by an electrician at the end of each run. The incandescent lights which are provided for the cab and tender are sufficiently shaded so as not to blind the engineer and fireman.

Silver Wedding Surprise.

The neighbors and friends of Mr. and Mrs. Jerry Phelps took them by surprise on February 3. As near as the leaders of the party could learn, it was the 25th year of their married life, but they were one year too soon, as it was their 24th year of their married life. The people carried out their part of the program, calling their married life 25 years. You ought to have been there and seen the baskets and boxes; there was enough to feed one of the hungry regiments of the war.

After some little time when order was brought out of confusion the tables were spread with the best the county and stores could afford and then the tables were filled by the hungry. They fed 102 besides a number of small children. We will make an effort to give a statement of presents given by those present:

Mr. and Mrs. R. G. Carr, Mr. Phelps, a fine hat, Mrs. Phelps, a fine dress pattern; Mr. and Mrs. W. P. Rogers, silver cake plate; Mr. and Mrs. S. F. Clayton, silver Bon Bon dish; E. V. In the case of Keller vs. Keller, for a divorce, the matter was called up and after the Judge exercised his prerogative in giving Mrs. Keller a lecture for not living with the defendant, the suit went over for a more convenient session. N. T. Gadd, appeared for the plaintiff and C. L. Gutterson, for defendant.

The time of the district court was taken up Tuesday largely in hearing an injunction suit against the school board, of district No. 11, a joint district with Sherman county. It appeared that the school board had refused to allow, Miss Ballenger, a sixteen year old girl, to attend school in the district, without paying tuition, and the injunction was gotten out by a brother-in-law, with whom the girl is making her home, to compel the board, to admit the girl to school. Judge Wall appeared for the board and Attorney Nightengale, for the plaintiff. The temporary injunction was continued until the next term of court, at Loup City.

Wilkins, who recently purchased the Wanick stock of drugs in the Walton building on east side of the public square, has moved the goods into one of the rooms in the Realty block, on the south side of the square, where he is now prepared to accommodate the public with anything in his line. Mr. Wilkins has been in the drug business, in Wayne, in this state, for the last seventeen years and is thoroughly competent in his profession. Mr. Wilkins is a very pleasant and genial man and we feel safe in assuring the public that they will find him a man with whom it is a pleasure to do business.
